POLYESTER YARN

Our company produces and supplies many yarn models to become a brand with polyester yarn group in the textile sector.

Our company, which contributes to the smooth evaluation of yarn models, which are an important factor in the quality of the product and its performance in the field of use, in the textile market; It is a brand that continues to serve by adhering to the principles of friendly service, endless satisfaction and trustworthy products and trying to increase the number of people preferred day by day.

150/48 NIM Polyester Yarn

These polyester yarn models, which take 150 denier value as a result of the 150 grams of 9,000 meters of yarn, are presented to the textile sector by Parvels Yarn as materials that open the doors to produce products suitable for long-term use.

150 denier polyester yarn produced in 3 different ways as colored polyester, black polyester and white polyester; are frequently preferred products. The 150 denier polyester yarn model, which has high ironing fastness, washing and friction properties, is an important and useful textile equipment that has been brought in recent years. 150 denier polyester yarn, which is environmentally friendly and prioritizes human health thanks to its non-carcinogenic substance, is a product that has an undeniable place in the textile industry.
